Riding the wave of the future

According to Dr. Samlaska, the Ulthera™ System is "one of the most remarkable aesthetic treatments available." Recently approved by the FDA, it uses ultrasound versus injections, lasers, radiofrequency or light to tighten and lift the skin. Safe, with a well-respected presence among the medical community, Ultherapy™ has no boundaries when it comes to skin type. Translation? "Almost everyone is a candidate," he says. "Even those with very fair or very dark skin have no increased risk for burns or post-inflammatory changes to skin color. This device actually lets us see below the skin surface while we treat, targeting the deep fascial, dermal and muscular layers. For the first time we can induce contraction in these deeper facial layers that used to be accessible only through surgery," says Dr. Samlaska, who along with Judy Hynds, Director of Aesthetic Treatments, has successfully used Ultherapy for the full face and neck. "We are very pleased with the results of this technology. My patients are happy, too, and that's what matters most," he says.

CASE STUDY

FINDING WHAT IS UNIQUE

Believing beauty is possible at any and every age, Dr. Samlaska feels age is in the eye of the beholder and that you're only as old as you feel. He therefore performed Ultherapy on this 65-year-old gentleman's face and neck to help him feel more youthful and self-assured again. "Aesthetic dermatology isn't only for women. Many men are interested in making the most of their looks—relying on treatments like energy-based skin tightening for improved facial definition."

"you can age gracefully, or you can age looking fantastic"

DOUBLE BOARD CERTIFIED IN DERMATOLOGY AND INTERNAL MEDICINE, DR. CURT SAMLASKA HAS HAD A LIFELONG LOVE AFFAIR WITH RESEARCH AND MEDICINE. HIS BACKGROUND INCLUDES 14 YEARS AT TERTIARY CARE MILITARY HOSPITALS—GIVING HIM EXPOSURE TO AN INCREDIBLE AND COMPLEX PATIENT BASE. HE HAS AUTHORED OVER 65 PUBLICATIONS AND TEXTBOOK CHAPTERS AND INSTRUCTED DERMATOLOGY RESIDENTS AT WALTER REED ARMY MEDICAL CENTER. TODAY HE MANAGES A BUSY COSMETIC PRACTICE ALONGSIDE A WELL RESPECTED MEDICAL DERMATOLOGY CENTER WHERE HIS STATED GOAL IS TO CURTAIL THE AGING PROCESS. "COSMETIC INTERVENTION IS TRICKY. MY JOB IS TO DETERMINE IF THE TREATMENT IS TRULY EFFECTIVE AND WILL WITHSTAND THE TEST OF TIME. BLENDING THE ART AND SCIENCE OF DERMATOLOGY IS AN EXCITING PART OF MY SPECIALTY."

Botox®
Chemical Peels
Microdermabrasion
Juvéderm®
Sculptra® Aesthetic
Restylane®
Facials
Permanent Makeup
Eyebrow and Lash Tinting

ABOUT DR. SAMLASKA

WHAT IS YOUR FAVORITE PART OF YOUR JOB?

My double board certifications give me a unique perspective, helping me counter age-related concerns with proven treatments. Don't forget that many skin conditions can have a dramatic impact. Unless you treat the medical cause, cosmetic intervention is going to have limited results.

WHAT IS UNIQUE ABOUT YOUR TREATMENT STYLE?

I study treatments before taking their claims at face value. I would rather bring someone back than overdo a procedure.
